

ADVENTURE KIDS

Arctic Room Vision

Atmosphere

It's my vision that the Arctic Room ministry will cultivate an atmosphere where kids desire to be in order to encounter God's presence. We want to have a room that is inviting to the first-time guests as well as the returning attendees. Our vision is for the teachers to lead the service with unction so the Holy Spirit can manifest himself at will.

Relationships

In addition to a powerful atmosphere, we want the kids to build healthy relationships where there is encouragement and edification being given and received. We want the kids connecting with each other outside of the church facility. We envision the kids being connected to the teachers and helpers in such a way where the kids are looking forward to seeing them each Sunday and Wednesday. We desire to connect the new or core kids into a meaningful relationship with the Lord.

Worship

Part of having a good relationship with the Lord is worshipping the Lord. Our vision is to have live worship led with instruments and worship leaders. We envision the kids excited about singing the Lord's praises with songs that are engaging and meaningful. Our vision is for the kids to recognize the value of worshipping our Lord and get found in His presence to a point where the distractions of this life fade away.

Teaching

Our vision is for the teaching to be impactful, while also very engaging for each child. We envision a teaching pedigree and anointing on each teacher where the kids can easily parrot the lesson to their caretakers and apply it to their life. We envision a teaching curriculum that is based on the Word of God and incorporates a heavy emphasis on the Spirit of God. We envision teaching that is interactive and/or object based to capture the kids attention and evoke deep imagination of the potential that lives within them.
