

ADVENTURE KIDS

Child Sickness Policy

ROOM HEALTH VISION

The vision behind this policy is for kids that are welcomed into our ministry to feel safe and secure while they are here. Although we believe and, are biblically certain that Jesus has given us victory over all sickness and diseases in Jesus name, not all families that attend Life Church have the same belief as us.

TEAM ROLE

Our policy is if a child is exhibiting symptoms of sickness the child is not to be let into the rooms. This includes excessive coughing or anything that is contagious in nature. If a team member runs into a situation where a sick child is brought to kid's ministry, we are to have the parent pick-up the child immediately.

What is the correct process to remove a sick child from the room?

- Pray health and healing over that child in the name of Jesus.
- Call the service coordinator and have them come pick-up the child for them to give to the parents in the kids check-in area.

What if a child says they are not feeling well but isn't exhibiting any symptoms?

- Pray health and healing over that child in the name of Jesus.
- Ask the child if they are hungry or tired. Often, hunger can cause a belly ache but certainly isn't sickness.
- Ask them where they are hurting. Sometimes gas can be mistaken for sickness by children. Take them to the restroom if they need to go.
- Ask them if they have vomited recently or feel like they might vomit.
- Is the child's face becoming more pale than before?
- Ask the child if this is something new or if they were feeling the same way before coming to church.

Ultimately, our goal here is to find out whether there is a true sickness or something else the child is mistaking for sickness. There is also a possibility for new kids they were forced to come to church by their parents and they don't really want to be there. Therefore, they are making excuses they know work to get out of the room.

We want to make sure we are doing our due diligence before getting mom and dad involved.
